What happens to us when we die? What is the Other Side – the spirit world – really like? How can we heal grief and use it to grow spiritually?

This 3 hour workshop focuses on helping you to understand death spiritually and as a natural transition in life. You will learn how death is a catalyst in our spiritual transformation and evolution and discover the reality of the continuity of the soul.

Included are:

- An in-depth explanation of the three-part transition of death.
- A fascinating description of the nature of the spirit world, its connection to earth and the soul's journey after death.
- True, personal examples from Ms. Obley's numerous communications with those in spirit that prove the existence of the soul after death.
- A powerful experiential exercise using a photograph to help you heal and embrace emotional closure with those in spirit.
- A meditative journey across the Rainbow Bridge that reconnects you with your loved ones in spirit through love.
- A discussion of your soul's spiritual purpose and blueprints before incarnation and the significance of "wake-up" calls that alert you to them.
- A question and answer segment.
- Random demonstrations by Carole of evidential messages from your loved ones that prove the continuity of life after death, providing reassurance and peace.

**Please bring a photo of your loved one(s) in spirit to the workshop.**
